

TaskMaster PRO Architecture

Bento Dashboard & Kanban Architecture (Lab 3)

TECHNICAL ARCHITECTURE & SPECIFICATION GUIDE

- Systematic Software Design Patterns & Layer Separation
- Production-Ready Implementation Pipelines
- Defensive Programming & High-Security Data Handling
- Full Academic Documentation & Verification Pipeline

Author & Lead Developer:

Kiatphum Hansrinath (Kiatphum H.)

Student ID: 64332110242-2 - Advanced Web & AI Engineering

TABLE OF CONTENTS & SYNOPSIS

- 1. Chapter 1: Executive Summary & Project Requirements
- 2. Chapter 2: Core Engineering Architecture & State Management
- 3. Chapter 3: API Integration & Data Integrity Protocols
- 4. Chapter 4: Security Verification & Supply Chain Safety
- 5. Chapter 5: Deployment Strategy (Vercel & Mobile WebView)
- 6. Chapter 6: Conclusion & Academic Reflection
